ACCESS SERVICE

7. Special Access Services (Cont'd)

7.4 Rate Regulations (Cont'd)

7.4.17 Multiplexer Cross-Connection

Multiplexer Cross-Connection (MCC) will be charged per cross-connect per central office, where the cross-connection is performed. If MCC is provided between two Telephone Company offices where multiplexing is performed, Channel Mileage and Channel Mileage Terminations for the lower speed service will apply between the two central offices along with one MCC charge per cross-connect per central office.

When one service is cross-connected to another service, the two cross-connected services are treated separately for service performance measurement and service interruption credit purposes.

If two customers are involved, one customer will be responsible for the entire billing of MCC. The responsible customer must obtain a Letter of Authorization (LOA) from the second customer and submit it to the Telephone Company with the Ameritech DS1 and/or Ameritech DS3 system and channel assignment information for the lower speed services being cross-connected.

ACCESS SERVICE**7. Special Access Services (Cont'd)****7.4 Rate Regulations (Cont'd)****7.4.18 Nonrecurring Charge (NRC) Waiver**

The NRC Waiver is a one time offering that for a limited period of time waives certain nonrecurring installation and service rearrangement charges for Ameritech DS1, Ameritech DS3 and Synchronous Optical Network (SONET) based services, i.e., OC-3, OC-12, OC-48, Dedicated Ring Services, etc.

Nonrecurring charges, including any associated Administrative, Design and Central Office Connection Charges and Customer Connection Charges will be waived only for orders requesting the following:

- (a) Installation of all SONET based services.
- (b) Installation of a new Ameritech DS1 or Ameritech DS3 service for connection to a new or existing SONET based service.
- (c) Rehomming an existing Ameritech DS1 or Ameritech DS3 service to a new or existing SONET based service.

The NRC Waiver will be available from November 1, 1995, until January 31, 1996.

The NRC Waiver will apply to any orders for service received between November 1, 1995 and January 31, 1996, with a due date no later than April 1, 1996.

Hoffman Estates, Illinois 60196-1025

ACCESS SERVICE**7. Special Access Service (cont'd)****7.4 Rate Regulations (cont'd)****7.4.19 Shared Facility Credit/Shared Facility Channel Service**

Ameritech DS3 Service customers who allow the Telephone Company use of their Ameritech-provided DS3 service for the provision of Shared Facility Channel Service to other Telephone Company customers may elect to receive a credit for that portion of the DS3 service used to provide the Shared Facility Channel Service. The credit will be based on the DS1 capacity of the DS3 service components (i.e., 1/28th of the monthly rates for a DS3 LDC with an Electrical Interface, DS3 Service Package with an Optical Interface and the DS3 Service Channel, DS3 to DS1 Multiplexer and, if appropriate, DS3 Channel Mileage Terminations and Channel Mileage). For DS3 LDCs with an Electrical Interface, the SFC will be calculated after application of Volume Pricing Plan discounts as described in 7.4.10 I preceding. In any month, the total SFC for any DS3 service element shall not exceed 100 percent of the monthly rate for the element.

C
C

The following terms and conditions apply to all DS3 Shared Facility Credit/Shared Facility Channel Service arrangements.

- (A) The customer of the Ameritech DS3 service cannot be the same as the customer of the Shared Facility Channel Service.
- (B) The Telephone Company and the DS3 customer must agree to work cooperatively to maintain accurate customer records of any SFC arrangements. The customer records which must be jointly maintained are:
 - connecting facility assignments by Shared Facility Channel customer and
 - additions, moves, or deletions of Shared Facility Channel customers onto or off of the DS3 service.

If the DS3 customer does not cooperate to maintain these customer records, the existing affected SFC arrangement(s) will be discontinued and additional SFC arrangements will not be established.
- (C) SFC can be established on Special Access DS3s for connection to Special Access DS1s only. If a Shared Facility Service channel of a DS3 service becomes vacant subsequent to the establishment of a DS3 SFC arrangement (e.g., the Ameritech DS1 customer disconnects service), SFC will be eliminated for that channel.

Certain material on this page now appears on 1st Revised Page 309.19.

ACCESS SERVICE

7. Special Access Service (cont'd)

7.4 Rate Regulations (cont'd)

7.4.19 Shared Facility Credit/Shared Facility Channel Service (cont'd)

- (D) The Telephone Company will only remove a Shared Facility Channel Service customer from the DS3 SFC arrangement at the request of the DS3 customer or because the Ameritech DS1 customer has discontinued service or moved service to a different transport facility. In the event the DS3 SFC arrangement is terminated without any physical change to the serving arrangement, the DS3 customer may request a Shared Network Arrangement, as described in Section 7.4.12, preceding. In the event a Shared Network Arrangement is converted to an SFC arrangement without any physical change to the serving arrangement, the Shared Facility Channel Service nonrecurring charge will not apply. M
- (E) In the event, a billing dispute is initiated by a Shared Facility Channel Service customer, the Telephone Company will negotiate with the Shared Facility Channel Service customer as set forth in Section 2.4, preceding. M
- (F) The Telephone Company will accept requests to disconnect the DS3 service only from the DS3 service customer. The DS3 customer is responsible for notifying each Ameritech DS1 customer utilizing a channel of the DS3 under a SFC arrangement. Notification must be completed no later than 10 business days before the DS3 is scheduled to be disconnected; otherwise, the DS3 may not be disconnected and billing of all services will continue.
- (G) Each customer must agree to work cooperatively with the Telephone Company to ensure proper installation, testing, maintenance, and repair of the affected DS3 or DS1 service(s). The DS3 customer must immediately release its service and arrange for the immediate release, if necessary, of any other Shared Facility Channel Service riding that DS3 service, for repair purposes, when requested by the Telephone Company. Failure to release shall result in the immediate termination of the SFC arrangements for that service (DS3), and that customer being liable for any service credits that the Telephone Company may owe the DS3 or other Shared Facility Channel customer riding that DS3 service.

ACCESS SERVICE**7. Special Access Service (cont'd)****7.4 Rate Regulations (cont'd)****7.4.20 Direct Digital Service Availability, Limitations and Conversions**

Direct Digital Service (DDS) is obsolete and, except as specified following, limited to existing installations at existing locations, for existing customers only and will no longer be available after January 1, 2000.

Customers with existing DDS multipoint service arrangements will be allowed to add, delete or move circuit legs associated with the multipoint arrangement until January 1, 2000, at which time the entire service must be either converted to an Ameritech Base Rate multipoint arrangement or discontinued.

Between February 26, 1999 and January 1, 2000, nonrecurring charges, including any associated Administrative, Design and Central Office Connection and Customer Connection charges associated with the conversion of an existing DDS service to an Ameritech Base Rate Service will be waived. In order to be eligible for the nonrecurring charge waiver, the DDS conversion must be to an Ameritech Base Rate Service operating at the same speed as the DDS service and provided between the same locations and to the same customer.

The nonrecurring charge conversion waiver will also apply to any nonrecurring charges associated with the rearrangement of an existing DDS Service coincident with its conversion to a Base Rate Service. Nonrecurring charges, including any associated Administrative, Design and Central Office Connection and Customer Connection charges will be waived for any orders requesting the following:

1. Rearranging an existing DDS Service from one port to another port on the same DS1 to Base Rate multiplexer.
2. Rearranging an existing DDS Service from one DS1 multiplexer to another new or existing DS1 to Base Rate multiplexer in the same Central Office.
3. Installation of a new Ameritech DS1 Service which is installed to accommodate Base Rate services that are converted from a DDS subrate multiplexing arrangement to a DS1 to Base Rate multiplexing arrangement.
4. Installation of Clear Channel Capability on a new or existing DS1 service that is provisioned to accommodate Base Rate services that are converted from DDS.

ACCESS SERVICE**7. Special Access Service (cont'd)****7.4 Rate Regulations (cont'd)****7.4.20 Direct Digital Service Availability, Limitations and Conversions (cont'd)**

N

The nonrecurring charge conversion waiver will apply to any orders for service received after February 26, 1999 with a requested installation date no later than January 1, 2000.

Any DDS circuit remaining in service on January 1, 2000, will be converted to an equivalent Ameritech Base Rate Service under a month to month rate plan. Nonrecurring charges associated with the conversion will not apply.

Between February 26, 1999 and January 1, 2001, error free second performance specifications as described in 7.2.8 (B) preceding will apply to any DDS service that is converted to an Ameritech Base Rate service. Credit allowance for service interruption as described in 2.4.4 (B) (6) preceding will apply during the period which the error performance is below that specified in 7.2.8 (B) preceding.

* The key activated control channel is rated as a Metallic Local Distribution Channel and Channel Mileage Termination and Channel Mileage, if applicable.

** The Dial-up option requires the customer to purchase the Controller Arrangement from Section 13.3.7 following.

*** An additional Local Distribution Channel charge will apply whenever the spare line is provided as a leg to the customer premises' serving wire center. Additional channel mileage charges will also apply when the transfer arrangement is not located in the customer premises' serving wire center.

7.5.16 Optional Payment Plan Vintage Rates

A. General Regulations

Optional Payment Plan (OPP) vintage rates are those rates that apply to existing services provided under an OPP term in the event the Telephone Company initiates a rate increase. Vintage rates as set forth following are classified as vintage because the Telephone Company ensures that rates provided under an OPP term will not be increased by the Telephone Company above the OPP rate in effect at the beginning of the customer's OPP term. Each Telephone Company Wire Center has been assigned to a rate zone. To determine the rate zone wire center assignments use the following:

- For OPP terms in effect prior to November 18, 2000, wire center rate zone assignments can be found in Section 7.7 following,
- For OPP terms in effect on or after November 18, 2000, wire center rate zone assignments can be found in the National Exchange Carrier Association, Inc. (NECA) F.C.C. Tariff No. 4.

Customers under their current OPP term will continue to pay the rates as shown in Section 7.5.16(B) until such time as:

- the effective tariff rate in Section 7.5.9 becomes lower than the vintage rate,
- the assignment of a new rate zone involves a lower rate,
- the customer's existing OPP term expires, or
- the service is terminated by the customer.

In addition, other customer modifications, other than termination, that cause a new rate or OPP term to be established will result in the service becoming non-vintage and the rates as specified in Section 7.5.5 through 7.5.12 will apply.

B. Vintage Rates

1. The following rates apply to DS1 services installed prior to April 23, 1997 in Illinois, Michigan, Ohio and Wisconsin and prior to June 6, 1997 in Indiana unless rates as specified under 7.5.9(B) are lower, in which case the referenced rates apply.
